PROFILE

High-fidelity simulation has transformed science, but its computational cost often limits its impact in practical engineering. I believe the next generation of simulation should be predictive, computationally efficient, and broadly accessible. My research seeks to bridge this gap through mechanistic modeling, reduced-order methods, and data-driven techniques.

JOURNAL PUBLICATIONS

1. Yuxuan Li, Zachary Wong, Jeff D. Eldredge, Adrienne S. Lavine, Timothy S. Fisher, and Bruce L. Drolen. **“Effects of inclination angle on oscillating heat pipe thermal conductance and dryout.”** *Accepted, ASME Journal of Heat and Mass Transfer*, 2026.
2. Yuxuan Li, Jeff D. Eldredge, Adrienne S. Lavine, Timothy S. Fisher, and Bruce L. Drolen. **“A Conjugate Heat Transfer Model of Oscillating Heat Pipe Dynamics, Performance, and Dryout.”** *International Journal of Heat and Mass Transfer* 227 (2024): 125530.
3. Li, Y., Z. Wang, B. Yu, B. Zhang, and H. Liu. **“Gaussian models for late-time evolution of two-dimensional shock–light cylindrical bubble interaction.”** *Shock Waves* 30, no. 2 (2020): 169–184.

PROCEEDING PAPERS

1. Doruk Isik, Yuxuan Li, Azfar Ali, Todd Koehler, Chiranth Srinivasan. **“Numerical Approaches for Predicting Cavitation Inception in Non-Cavitating CFD Simulations.”** Proceedings of the ASME 2026 Fluids Engineering Division Summer Meeting, Bellevue, Washington (2026).
2. Yuxuan Li, Chengjie Wang. **“RANS-based simulation of KCS wave breaking characteristics.”** Wageningen 2025: A Workshop on CFD in Ship Hydrodynamics, Wageningen, Netherlands (2025).
3. Yuxuan Li, Jeff D. Eldredge, Adrienne S. Lavine, Timothy S. Fisher, and Bruce L. Drolen. **“A data assimilation model of oscillating heat pipe dynamics and performance.”** Joint 21st International Heat Pipe Conference and 15th International Heat Pipe Symposium, Melbourne, Australia (2023).

PRESENTATIONS

1. Yuxuan Li, Jeff Eldredge, Adrienne Lavine, Timothy Fisher, and Bruce Drolen. **“Estimating thermofluid system parameters using a Markov chain Monte Carlo method, with an example of oscillating heat pipes.”** 76th Annual Meeting of the Division of Fluid Dynamics, Washington D.C., USA (2023).
2. Yuxuan Li, Zachary Wong, Jeff D. Eldredge, Timothy S. Fisher. **“Empirically Trained Models of Oscillating Heat Pipes for Improved Performance, Limits, and Control.”** 2023 Spacecraft Thermal Control Workshop, Torrance, USA (2023).
3. Li, Yuxuan, Jeff Eldredge, Adrienne Lavine, Timothy Fisher, and Bruce Drolen. **“Thermofluid modeling of an oscillating heat pipe.”** The 17th Southern California Flow Physics Symposium, San Diego, USA (2023).
4. Yuxuan Li, Jeff Eldredge, Adrienne Lavine, Timothy Fisher, and Bruce Drolen. **“Thermofluid modeling of an oscillating heat pipe.”** 75th Annual Meeting of the Division of Fluid Dynamics, Indianapolis, USA (2022).
5. Li, Yuxuan, Jeff Eldredge, Adrienne Lavine, Timothy Fisher, and Bruce Drolen. **“Thermofluid modeling of an oscillating heat pipe.”** The 16th Southern California Flow Physics Symposium, Los Angeles, USA (2022).

APPOINTMENTS

Simerics Inc., Novi, MI, USA

Project Engineer

2024–

- **CFD Simulation and Analysis:** Develop high-fidelity 3D models using Simerics-MP+ to analyze complex fluid phenomena, including cavitation, aeration, and multiphase flow in rotating machinery.
- **Design Optimization and Validation:** Conduct transient simulations and parametric studies to evaluate component performance; validate numerical models against physical experimental data to ensure high-accuracy results.
- **Client Training and Technical Mentorship:** Deliver training sessions on CFD best practices, from CAD-to-mesh translation to result analysis, and develop instructional documentation to facilitate client learning and methodology adoption.

AWARDS

- UCLA Mechanical and Aerospace Engineering Department Fellowship 2019-2023
- SJTU Outstanding Graduate 2019
- UCLA-CSST Scholarship (~ 5000\$) 2018

TEACHING EXPERIENCE

University of California, Los Angeles

- Teaching Assistant for MAE150A *Intermediate Fluid Mechanics* (overall TA rating 7.85/9)

REVIEWER EXPERIENCE

ASME Journal of Heat and Mass Transfer
International Journal of Thermal Sciences
SAE WCX 2026

EDUCATION

University of California, Los Angeles

Ph.D. in Mechanical Engineering. Major: Fluid Mechanics
Thesis Advisors: Jeff Eldredge and Adrienne Lavine

2019–2024

GPA: 4.0/4.0

Shanghai Jiao Tong University

B.S. in Aeronautics and Astronautics.

2015–2019

GPA: 3.7/4.0
